In re Application of

Ronald H. KNAPP

Art Unit: 2878

Serial No. 10/804,203

Examiner: Davienne N. Monbleau

Filed: March 19, 2004

For: FIBER OPTIC SENSORS FOR COMPOSITE PRESSURE TANKS

REQUEST FOR RECONSIDERATION

To the Director of the Patent and Trademark Office

Sir:

Kindly reconsider the June 2, 2008 office action, and allow the claims.

There appears to be no MPEP Section 2114.03 as cited at the top of page 8. The examiner may have meant 2144.03.

37 CFR 1.111(b) does not appear to pertain, as cited near the bottom of page 7.

In re Chevenard is incorrectly cited on page 7, and although the forum is not noted, the case is before the 1952 revision and codification of the Patent Law.

Applicant has traversed with particularity the claimed elements held to be obvious by the examiner without citing art. See, for example, the paragraph spanning pages 8 and 9 of the March 21, 2008 response.
